Hi Mathew,

As mentioned to you earlier, both reviews have been completed for this action. But we won't be able to register this product until a decision has been made on the pending petition. So the current PRIA due date of 7/21/2022 for this action will have to be renegotiated to 10 /21/2022(3more months). If you agree to this new proposed PRIA due date, please reply to this email with the following details

Decision #(575456)

Reg#(82633-TI)

Current PRIA due date(7/21/2022)

Proposed PRIA due date(10/21/2022)

Kindly let me know if you have any questions.

Thank you,

Manju
